

Your dream pool!

Custom designed to suit your home & your lifestyle

"Thank you for providing a stress free time while installing our pool. The service was fantastic and all contractors turned up when they said they would. Thanks for being available every time we needed to talk. No one other pool company provided us with the information regarding point of sale choices like you did. Thank you for such a professional, personal, fantastic pool completion!"
Jon & Teressa Kennedy of Bligh Park

Choosing the wrong pool construction company could leave you with a costly disaster. Here are 7 good reasons why you should call Blue Haven Pools.

BLUE HAVEN POOLS & SPAS - RANKED AUSTRALIA'S #1 POOL BUILDER

*Reed Construction data 2001/02/03/04/05/06/07/08

- 1 Winner of over 350 industry design awards, we take great pride in custom designing a pool you will love to suit your property, architecture and lifestyle. All our pools are individually designed and custom built especially for you. Plans are then drawn and submitted to council.
- 2 We offer a fixed price contract taking into consideration local government application costs, insurance and all stages of construction
- 3 Contract time frames are set within our contract offering fixed timing for council submissions and construction periods so you can plan with confidence
- 4 We have over 30 qualified supervisors carefully appointed, tailored to your district and specific project to save time and money. This luxury could never be provided by any other builder as their choice is limited by their size. We also have the largest team of craftsman offering excellence in workmanship and the ability to complete construction within the shortest time frame.
- 5 Because Blue Haven builds so many pools, we enjoy mass volume prices on building materials, equipment, accessories and trades. These savings are then passed onto you; making us your most economical pool builder without compromising quality.
- 6 We are a swimming pool & spa supermarket offering unbiased advice over the whole range. Specialising in concrete pool construction and offering alternatives such as fibreglass pools, vinyl lined above-grounds, swim spas, spa pools and portable hydrotherapy spas. See the largest showrooms in the southern hemisphere showcasing a wide range of swimming pools and spas within a landscaped setting, built and operating, allowing you to picture your own backyard.
- 7 We work hard to be the industry's number 1. Our commitment to excellent after sales service and on-going care to protect our reputation is very important to all of us. We turn up when we say we will, we keep your yard tidy and clean up, we guarantee our completion date and we plan on being around for generations and generations.

Growing up in our family business, Blue Haven Pools & spas has been a large part of my life. I've often been asked what is it that drives me to stay part of Dad's family business? The answer is simple. PEOPLE.

People like you who desire to invest in the best pools and spas and who desire to live a life that reflects your unique taste and style. There is not better place to celebrate the times of your life than at home with the one's you love. I look forward to the opportunity to provide you and your family a quality Blue Haven Pool and am available to you personally before during and after construction.
